

Revo's Eco-Friendly Re-Use Highside sunglasses utilize 100% recycled pre-consumer plastics. Designed to have a big impact with little impact on the environment, all Revo Re-Use frames feature proprietary Revo Polarcast lens technology, which is the result of several optical innovations. Every Revo lens receives three coatings – a selective wavelength attenuation coating which allows usable light to pass through the lens while blocking glare from haze, fog or other forms of diffused light; an anti-reflective coating to eliminate light that bounces off the inside of the lens; and Revo's exclusive Element Shed coating to ensure dust, sand and water will roll off the surface of the lens. **MSRP \$189**

Tifosi's Logic sunglasses utilize a large shield lens for optimum protection, while vents prevent fogging during strenuous activity. The Logic sunglasses also feature adjustable hydrophilic nose and ear pieces. **MSRP \$59.95**

Dragon Alliance's E.C.O. (Environmentally Conscious Optics) line are the first sunglass made from 100% renewable origin. This means that nature replenishes the material used for the sunglasses at the same rate as it is consumed. The Eco will launch as part of Dragon's Rob Machado's Experience collections, which includes FSC (Forest Stewardship Council) certified packaging material and comes with 100% organic cotton bags, printed with water-based ink. ECO Matte Black (polarized) **MSRP \$70.00**

Costa Del Mar's Gatun sunglasses are constructed with extra-durable frames for the rigors of every outdoor activity and include hydrolite nose pads. **MSRP \$149**

Julbo's Bivouak sunglasses are the first-ever to incorporate magnetic protective side shields with protective wing attachments. They are available in three different lens options (Zebra, Camel, Spectron-4). **MSRP \$160**

Smith Optics' Pivlok V09 Max features a proprietary, patent pending temple/hinge piece that the company claims is the lightest performance interchangeable rimless sport style on the market. Both the temples and the nosepiece remove easily. Soft, Hydrophilic Megol located at the temple tips and on the nose piece ensure a secure fit. **MSRP \$139.00**
