

Quam/Q3/Kilo/Dolomite/ Ventoux/Strada

Note: Lenses must be interchanged one lens at a time.

To Remove a Lens:

1. With the sunglasses facing down and the arms fully extended, hold the top and bottom of the frame with both hands.
2. Place your fingers on the front side of the frame and your thumbs on the back side of the frame while letting your thumbs rest on the lens.
3. Gently flex/spread the frame apart with your fingers as you press down on the lens releasing the lens to the front of the sunglasses.
4. Repeat steps 1 – 3 with the opposite lens.

Quam/Q3/Kilo/Dolomite/Ventoux/Strada

Note: The lens with the Tifosi logo is the left eye lens.

To Install a Lens:

1. With the sunglasses facing up and the arms fully extended place the lens over the frame and line it up with the groove on the outside corner.
2. Place your fingers on the back side of the frame and your thumbs on the front side bracing the lens over the frame.
3. Gently spread the frame with your fingers as you guide the lens down into the inside corner of the frame with your thumbs.
4. Press the inner and outer edges of the lens into the frame with your thumbs.
5. Make sure that the lens is seated in the frame by squeezing the outside perimeter of the frame.
6. Repeat reinstall steps 1 – 5 with the opposite lens.
7. Using your Tifosi™ Microfiber cleaning bag, wipe any fingerprints off the lenses.
